

# FARMHOUSE COLLECTION

The Farmhouse Collection features a wide selection of homes with the distinctive “farmhouse” style typically consisting of board and batten siding and other design details to reflect this increasingly popular architectural style. In addition to a long list of available options for maximum design flexibility, the Farmhouse Collection can also be modified and customized to meet any homebuyer’s specific needs.

*Franklin Prefab homes provide the style and design of conventional on-site built homes. While offering a broad selection of designs and styles, Franklin Prefab homes are fully customizable to create a home that specifically meets your own design preferences.*
